

The proposal should include:

1. Abstract (300 words)
2. Short popular description of the Theme for non-experts (100 words, in both English and Swedish)
3. Background and motivation (2 pages)
Explain how the proposed Theme is innovative and forward-looking. Refer to relevant current research in order to ensure that the Theme is well motivated.
4. Main research questions (0.5 page)
5. Research goals and objectives (0.5 page)
Long term (visionary)
Short term (the Theme period)
6. Expertise in the Theme group (1 page)
 - Briefly describe each participant's area of expertise of relevance for the Theme.
 - Outline previous relevant collaborations and networks within the Theme group.
 - Nominate international fellows and specify their area of expertise of relevance for the Theme. Include the agreed upon dates for visit/s.
7. Work plan (1 page)
Describe how the work within the Theme will be structured, and how participants share the responsibility for the work. Include international fellows and how they will contribute to the project.

Specify activities, including shorter visits from guests, and suggest a plan for presentation of Theme activities/outputs. Outline the purpose and form of these as far as possible. Examples of relevant activities and forms of output include: internal/external workshops with visiting guests; an exhibition; a video production; a panel discussion; a final seminar.

Include references (max 10).

8. CV information

No more than one page per Theme participant, which must include current employment, qualifications, education and projects and publications relevant to the Theme.

CV for nominated international fellows, maximum five pages which must include current employment, qualifications, education, and projects and publications relevant to the Theme.

9. Budget/cost frame information

Fill in the full cost frame in the supplied Excel template and send it in as is. Do not add or make changes to the template. The template contains underlying information on surcharges to facilitate the calculation.

The cost frame is to include:

1. Participant's payroll information (monthly gross salary).

2. Estimated costs for activities and output including costs for short-term guests (i.e. travel and accommodation). The total available frame for activities and output is 100 000 SEK.

Note! Costs for international fellows are *not* to be included in the cost frame. The international fellows programme covers all costs for international fellows (i.e. travel, accommodation and salaries).
